

Autoglym LifeShine Exterior

The Autoglym LifeShine Exterior system offers a unique and realistic opportunity to keep the exterior of your car in top condition for up to five years.

The Autoglym LifeShine Exterior system offers a unique and realistic opportunity to keep the exterior of your car in top condition for up to five years. Specially treated surfaces maintain appearance to give miles of pleasure and retain re-sale value. With Autoglym LifeShine Exterior you can drive away from the showroom confident in the knowledge that your new car has been prepared using the finest products in the world, and with a complimentary LifeShine Exterior Care Kit, ongoing conditioning is assured.

Paintwork Protection All exterior paintwork is treated to a unique protective coating to enhance, shine and ensure maximum resistance to environmental hazards, even the severest winter weather. The glossy water-repellent coating is easier to keep clean and maintains a superb deep gloss shine.

The value of your car in years to come can depend greatly on cosmetic condition!

Glass Treatment Extra care is taken to remove all pre-delivery protection coatings from the windscreen and wiper system to ensure smooth operation and clarity. The washer reservoir is charged with cleaning booster.

Glass Protection All external side and rear windows are treated with a long-term, optically clear, non-stick, easy to clean coating. As you drive the raindrops roll off to give greatly improved wet weather visibility and safety.

Once your car has been prepared, you will receive an Autoglym LifeShine Exterior registration document and a complimentary LifeShine Exterior Care Kit. Keep your registration document safe for the day when you may wish to impress a prospective purchaser.
